

## FLOWMASTER

The SafetyTech Flowmaster<sup>TM</sup> is a tight-fitting face mask with an integrated motor blower and with a High Efficiency (HE) filter.

Ambient air is drawn through the HE filter resulting in a steady flow of purified air, keeping the user cool and protected. Excellent for working in hot and humid conditions.

### APPLICATIONS:

- Asbestos Abatement
- Lead Paint Abatement
- Dust and Mold Remediation
- Particulate and Aerosol Filtration

### BENEFITS:

- Over 8 hrs of continuous operation on a single charge
- Unrestricted movement in tight areas
- Cooling effect when needed most
- Relieves respiratory stress
- Increased protection with positive airflow

Compact Nickel Metal Hydride (NiMH)  
Rechargeable Battery Pack and Charger
