

P3 PARTICLE FILTER

P3 PARTICLE FILTER

The SafetyTech P3 Filter is a highly effective Particulate Filter with standard 40 mm threaded male connection, suitable for most common filter ports on masks and PAPR (power air purifying respirators). Available with louvered or button-hole lid, the SafetyTech P3 is ideal for applications where protection from solid and liquid particles, radioactive or toxic particles and biological threats is required. Designed to comply with European (EN & CE) Respiratory Standards.

TECHNICAL DATA AND MANUFACTURER CERTIFICATIONS

Part Number	RP-P3-01 (Button-Hole Lid) RP-P3-02 (Louvered Lid)
Shelf Life	5 Years (sealed)
Weight	Button-hole Lid - 0.21 pounds (92 gr.) Louvered Lid - 0.21 pounds (96 gr.)
Connection	EN 148-1 (40mm) NATO thread
Material:	ABS
Diameter:	106mm (nom. OD)
Color:	Black
Breathing Resistance:	30 lpm = 0.27 mbar 95 lpm = 1.09 mbar
Penetration @ 95 lpm:	Sodium Chloride = 0.005% Paraffin Oil = 0.002%
Certification No.	CE1693
Approval:	EN 143

APPLICATIONS:

- Tactical
- Police
- Industrial
- Personal Protection
- Healthcare
- Pharmaceutical
- Agriculture
